

Power Label

Eliminate tedious customizations and manual effort, and automatically generate custom labels in Netsuite. Control the Look and Feel of the Label.

PRODUCT FEATURES

No-Code Custom Labels	App comes with a library of pre-designed label templates for common use cases. The user will have the ability to customize and save label templates for future use with no-code interactive interface.	Go to list of PowerLabel Templates. Select out of variety of templates. Select fields.
Label Branding	This application allows you control the look and feel of the label including adding logos to personalize them to your business.	Example: Adding logo to the label, Defining header and footer for the label, etc.
QR code or Bar code	Moving to 3D QR code labels or maintaining Bar code labels? PowerLabel allows for Labels to be printed by both Bar Code printers and Standard Label Printers.	Example: Moving to QR code based labels with code based on value other than UPC
Email Labels	Want to locally store or email the labels? PowerLabel has you covered	Example; Add recipient's email id on the Label template. Labels will mailed during generation.
Bulk Label Generation	Labels can be printed both single & bulk quantities with visibility into quantity on hand information while generating them.	Example: Reprint all T-shirt labels received from XYZ manufacturer
Built For Netsuite	The Built for NetSuite solution is part of your NetSuite platform with no need to be concerned about maintaining separate databases and third-party products.	Contact us. Install the bundle. Start using PowerLabel.
